

Why are you applying for Financial Aid? (150 words minimum required)

I'm a student from Tunisia and I want to learn **introduction to Cloud Computing**

I think it will be beneficial for my thesis work. But I've no job of my own to carry the expenses to pay for the certificate of this course. I live only for my scholarship (30DT or about \$10 per month). In this circumstance, it is very much difficult for me to gather such an amount of money for the certificate. Financial Aid will help me take this course without any adverse impact on my monthly essential needs. So I'm badly in need of this financial aid. I want to take this course as I want to **learn cloud computing and full stack development**. I want to complete the **full stack development**. This course will boost my job prospects after graduation from my institute. It will help perform better in carrying out **full stack development** and give me an edge over my competitors. A verified certificate will attach credibility to the certificate I receive from this course. I plan to complete all assignments on or before time as I have done in previous Signature Track Courses. Also, I intend to participate in discussion forums, which I have found to supplement my learning immensely in the other online courses I have taken on Coursera. I also plan to grade assignments that are too peer-reviewed which I believe will be an invaluable learning opportunity.
